

Please do NOT allow LPFM broadcast service to replace stations such as K-LOVE, which my family greatly benefits from. Without K-LOVE, being broadcast from an FM translator I would cease to listen to any radio station in my local area. There is no better, positive influence being broadcast over the airways in the Oklahoma City area than the K-LOVE radio station. The service provided by K-LOVE is one of the best in this area. Many people are down-and-out these days, and K-LOVE provides a tremendous service to meet the needs of many. Most news focuses on the negative happenings in our world and I believe affects people in a negative manner. K-LOVE is so positive and it never really hit home to me than when the trade center fell to terrorists. It was a relief to turn on K-LOVE after being bombarded with the television coverage and get some positive influence on life. Please do not change things that would take stations like K-LOVE off our airways.
Thank You.
